## DISEASE BREEDERS

Health Board Condemns Plague Spots.

TO ERADICATE DANGER

Old Chinatown in Present Condition a Source of Filth--Aala's Pools.

Several important resolutions were passed at yesterday's session of the Board of Health condemning as insanitary many places in Honolulu which are considered menaces to public health. These are the low lying portions of land within the precincts of what was formerly known as Chinatown, and which were swept clean of the buildings by the fire of January 20 last. These fill up in the rainy season and are considered traps of disease. The superintendent is asked by the Board of Health to notify the owners of the property to fill up these places to the grade of the public highway. Other places are in the Aala section.

The resolutions have the ring in them which made the condemnations of plague spots in Honolulu such good reading in the latter part of December last year and the early part of this. It was by such resolutions that many disease holes and swampy places were perforce filled in by the property owners, and the possibility of their becoming microbe farms eradicated.

Dr. Cooper presented the following resolution: "Whereas, in the opinion of the Board of Health those districts bounded by King, River, Hotel and Kekaulike streets, and Hotel, River, Pauahi and Maunakea; also Pauahi, River, Beretania and Maunakea streets, are deleterious to the public health in consequence of being low and at times covered or partially covered with water, and at all times improperly drained and incapable by reasonable expenditure of effectual drainage, and are in an insanitary and dangerous condition:

"Therefore, be it resolved that the Secretary of the Board of Health report to the Superintendent of Public Works these facts, together with the recommendation of the Board of Health that such lands be filled to the grade of the surrounding streets, and the further recommendation that all permits for buildings to be erected in said area shall be denied until the level of the same shall have been raised to the grade of the public highway except in such cases where brick buildings have cellars with walls faced with cement, and cement floors."

Carried. Should the Superintendent of Public Works carry out the recommendation of the board the tract of valuable land lying within the described boundaries will become one of the best sections in the business district.

Dr. Cooper also presented the following resolution, which was also adopted:

"Whereas, in the opinion of the Board of Health all that piece or parcel of land situate in the district of Honolulu, and lying mauka of Beretania street, Waikiki of Aala Lane, and makai of the St. Louis College grounds, and which is covered with a pool of stagnant water, is insanitary, a source of filth and cause of sickness, and a danger to the public health,

"Therefore, be it resolved that said parcel of land be condemned, and notice of such condemnation be sent to the Superintendent of Public Works, with a recommendation that the land be filled up."

Another resolution by Mr. Smith, as follows, carried:

"Whereas, in the opinion of the Board of Health all that piece of land on the mauka side of Beretania street and Ewa of Aala Lane which lies below the grade of Beretania street, more particularly described as follows, beginning at the Waikiki side of the blacksmith shop and running mauka to the sugar cane fields, thence Ewa along the cane fields to the coral bank in the rear of certain property belonging to Ching Lum, thence makai along said bank to Beretania street, and thence to the point of beginning, is insanitary, a source of filth and cause of sickness, and a danger to the public health,

"Therefore, be it resolved that said parcel of land be condemned as unfit for human habitation, and that the owner be notified to immediately remove the tenants from the buildings on such land until the land is filled up to the grade of the adjoining streets and the buildings put in a sanitary condition, and that notice of this resolution be sent to the Superintendent of Public Works."

A Mothers' Many Wish.

Many a mother of a peevish, restless, sickly child has wished that her little one was as strong and rugged as an Indian babe. Such mothers can make

their children strong and well, if they rid the child's system of worms, which cause nine-tenths of children's troubles. Kickapoo Indian Worm-Killer will do it. For centuries the Indians used it to make their babies rugged, powerful, fearless. What it has done for the child of the forest it will do for the child of the civilized—sure. That is what it has been doing for years. You can get it of your druggist for 25 cents. Be sure to get the genuine. The child's life is too precious to trifle with worthless substitutes. Hobron Drug Co., agents for Kickapoo Indian Remedies.

JUST IN TIME.

A circus paid a flying visit to a small northern town not long ago, and the price of admission was sixpence, children under ten years of age, half price. It was Edith's tenth birthday, and her brother, Tom, aged thirteen, took her in the afternoon to see the show.

Arrived at the door he put down ninepence and asked for two front seats.

"How old is the little girl?" asked the money-taker, doubtfully.

"Well," replied Master Tom, "this is her tenth birthday, but she was not born until rather late in the afternoon."

The money-taker accepted the statement and handed him the tickets. But it was a close shave.—London Spare Moments.

## CERTIFICATES ARE UNSIGNED

That is Reason Why Orientals Can't Leave for Home.

The absence of Governor Dole has caused sorrow among the scores of Orientals, especially the Chinese, who have booked for passage to the Celestial Empire on the Rio de Janeiro, which sails for Yokohama and Hongkong tomorrow.

On the Governor's desk are yet several hundred certificates of deposit in the old Postal Savings Bank, which has been discontinued by the introduction of the United States laws. These certificates show that Ah Lee and other Celestials had in the Postal Savings Bank when that institution closed its doors certain amounts of money which had been deposited every month during their term of contract service, sufficient to insure the payment of passage home when their contracts expired.

On the books of the Savings Bank were about 7,000 names of such Chinese depositors. One dollar and fifty cents a month was required as a deposit until the amount of their passage had been so placed under the charge of the Government. When they desired to return home, this money was applied to the purchase of their tickets.

All these certificates, which have to be signed by the Governor and attested by Secretary of the Territory Cooper, have not been completed. As a result, either the Chinese will be compelled to await the next steamer to the Orient, or assign their Savings Bank accounts to some one who will advance sufficient money to enable them to go now. Wray Taylor, who has charge of the certification of Chinese, has often made such loans and may make more.

The Governor may arrive in Honolulu tomorrow from Kauai, and an effort will be made to get his signature to the desired certificates.

## PNEUMONIA PREVENTED.

Among the tens of thousands who have used Chamberlain's Cough Remedy for colds and la grippe during the past few years, to our knowledge, not a single case has resulted in pneumonia. Thos. Whitfield & Co., 240 Wabash avenue, Chicago, one of the most prominent retail druggists in that city, in speaking of this says: "We recommend Chamberlain's Cough Remedy for la grippe in many cases, as it not only gives prompt and complete recovery, but also counteracts any tendency of la grippe to result in pneumonia." For sale by Benson, Smith & Co., Ltd., wholesale agents.
